Washington

Dear Leonard:

25X1A9a

I passed the very gratifying news contained in your letter of August 14 on to [REDACTED]. It is reassuring, at least to me, that positions of this responsibility are now being filled by qualified individuals from the ranks of KUBARK itself.

Arrangements can very easily be made to permit [REDACTED] to visit other stations in Europe and also in the Middle East during the course of his tour. He has plenty of time and will formulate a schedule which will cover all the places which he thinks significant and which will permit substantial advance notice of his proposed arrangements. He has some question as to whether it would be better for him to return via the Far East or to return directly to Washington and visit the Far East after the assumption of his new responsibilities. I have suggested that he work this out with you directly.

25X1A9a

With best personal regards.

Sincerely yours,

25X1A9a
